

New Store Sparks Controversy

Town Residents Are Divided on the Opening of New Grocery Store

The opening of Family Grocery Store has caused some citizens unhappiness. According to some, "The music that they play in the store is annoying and displeasing." Some of the songs include songs from the album *Heavy Metal Songs* and *Loud Annoying Music*.

Others however share the opposite opinion, saying the music is fun and enjoyable. "If people don't like what music they play, then they can go somewhere else to shop." Some say, "Or just wear earplugs!"

As of now, the store has not released a statement, but they have put a sign at the front of the store saying, "Please **do not** gather at the storefront **please**."
